

Speech Pathology Services from Bloom Healthcare

At **Bloom Healthcare**, our **Speech Pathologists** offer services for people with disabilities.

We provide services:

- **In your home or in the community.**
- **Tailored** to meet your specific communication needs under your **NDIS plan.**

What We Do

Our Speech Pathologists help with:

- **Speaking** and using your voice.
- **Understanding language.**
- **Social interaction** (talking with others).
- **Fluency** (how smoothly you talk).
- **Reading and spelling.**
- Using **technology** or communication **aids.**
- **Eating and drinking** safely.

We provide services for both **children** and **adults.**

Who We Help

Our team specialises in helping people with **Autism** and other disabilities.

We understand how **communication difficulties** can affect your daily life. That is why we provide:

- **Assessments** that focus on your communication needs.
- Support to help you **improve your communication skills.**

Our Approach

At **Bloom Healthcare**, we believe that:

- **Communication** is an important part of life.
- Everyone deserves **high-quality Speech Pathology services**.

We are here to help you:

- **Improve your communication.**
- **Achieve your goals** with ongoing support.

How We Can Help

Our services include:

- **Communication assessments.**
- **Swallowing assessments.**
- **Meal-time management plans.**
- **Therapies** designed just for you.
